**Subject:** [External] Dominion request for increased solar tariffs

Dominion Energy is requesting a large increase in payments from their customers who use rooftop solar energy and a reduction in payments to those customers who have solar power to sell back to the grid.

PLEASE REJECT THOSE REQUESTS. Dominion Energy customers (I am one) deserve to be able to use solar power without being penalized. In addition to helping individual customers, all of us who live in SC will benefit from greater use of non-polluting, renewable energy that does not contribute to global warming.

Thank you for your consideration.

Sara Schechter-Schoeman
